GAS AUCTION IMPLEMENTATION GUIDELINES
MID-MERIT NATURAL GAS CAPACITY AUCTION

The Department of Energy (DOE), through the Natural Gas Auction Committee (NGAC), hereby issues this Gas Auction Implementation Guidelines (GAIG) for the Mid-Merit Natural Gas Capacity Auction pursuant to the relevant provisions of DOE Department Circular (DC) No. DC2026-06-0013, entitled *"Prescribing the Guidelines for the Conduct of the Mid-Merit Natural Gas Capacity Auction for Gas-Fired Power Generation"*, also known as the *"Gas Auction Guidelines"*.

The following Annexes form integral parts of this GAIG:

Annex A	Auction Design and Framework
Annex B	Instructions to Bidders
Annex C	Bidding Data, Forms, and Templates
	C1: Registration Form
	C2: Letter of Intent
	C3: Affidavit of Undertaking (No Legal Impediment and Good Faith)
	C4: Secretary's Certificate
	C5: Sample Board Resolution
	C6: Bid Form
	C7: Affidavit of Undertaking: C7A: For Existing or Operational Facility C7B: For New or Under Construction Facilities
	C8: Certification under Oath for Existing Facilities on the Declared Fuel Source Category
	C9: Work Program

1. Purpose and Coverage

This GAIG prescribes procedural requirements, timelines, submission process, evaluation workflow, electronic bidding platform mechanics, contingency measures, post-auction processing, coordination, monitoring, and records management for the conduct of the Mid-Merit Natural Gas Capacity Auction.

This GAIG shall implement and supplement DOE DC No. DC2026-06-0013, the Invitation to Bid (ITB), the Terms of Reference (TOR), Bid Bulletins, and other official auction documents issued by the DOE for each Auction Round.

The TOR shall prescribe the substantive technical, legal, financial, settlement, eligibility, warranty, security, and replacement power obligations applicable to a specific Auction Round. In case of conflict between these GAIG and DOE DC No. DC2026-06-0013, the DC shall prevail. In case of conflict between the GAIG and the TOR on auction-specific requirements, the TOR shall prevail, unless otherwise expressly provided by the NGAC.

2. Implementation Timeline

The conduct of the Mid-Merit Natural Gas Capacity Auction shall follow the specific timeline prescribed in this GAIG. The detailed timeline for the applicable Auction Round shall be as follows:

No.	Activities	Duration (Calendar Days (CD)/ Working Days (WD)	Day
Publication and Issuances			
a.1	Publication of the ITB, TOR, GAIG, and other auction related documents	1 WD	Day 1
a.2	Energy Regulatory Commission (ERC) Issuance of the Gas Auction Threshold (GAT) Price	60 CD	Commences Day 1
Pre-Auction			
b.1	Registration of intent by interested Bidders for pre-qualification	10 WD	Commences 15 CD after a.1
b.2	Evaluation of pre-qualification documents by the TWG/BEAC	2 WD	Commences after b.1 deadline
b.3	NGA-BEAC posting of list of Pre-Qualified Bidders and notification through email of qualification results and issuance of User-Specific IDs for Pre-Qualified Bidders	2 WD	After b.2
Pre-Bid Conference Activities			
c.1	Deadline for Pre-Qualified Bidders' submission of comments/clarifications in the TOR, GAIG, and other auction related documents and report any issues encountered in the Electronic Bidding Platform	1 WD	3 WD Before c.2
c.2	Pre-Bid Conference	1 WD	3 CD After c.1 subject to completion of a.2 or b.1-b.3, whichever comes later

c.3	Issuance and posting of Bid Bulletins as approved by the Secretary	1 WD	3 WD After c.2
Auction			
d.1	Pre-Qualified Bidders' Submission of an Electronic Copy of Bid Security		Commences same day as end of c.3
d.2	NGA-BEAC issuance of Electronic notices of acceptance of Bid Security	1 WD	Same day as end of d.1
d.3	Auction Proper – Submission of Capacity, Energy and Gas Auction Price (GAP) offer	1 WD	After d.2
d.4	Submission of the original Bid Security by the Qualified Bidders	2 WD	Commences same day as d.3
d.5	TWG validation and endorsement of the bids and corresponding capacities	2 WD	Commences same day as d.4
d.6	NGA-BEAC review and endorsement of the validated Bids to the NGAC	1 WD	After d.5
d.7	NGAC approval of the list of Potential Winning Bidders based on accepted bids	1 WD	After d.6
d.8	NGAC endorsement of the list of Potential Winning Bidders to the DOE Secretary	1 WD	After d.7
d.9	DOE Secretary's approval and issuance of Notice of Award to Potential Winning Bidders	2 WD	After d.8
d.10	NGA-BEAC publication of list of Potential Winning Bidders through the DOE Website	1 WD	Same as last day of d.9
Post-Auction			
e.1	Potential Winning Bidders submission of post-auction documents to DOE-RMD	10 WD	After d.10
e.2	DOE-RMD transmittal of post-auction documents to the TWG	1 WD	After e.1
e.3	TWG evaluation of Post-Auction Documents and endorsement to NGA-BEAC	2 WD	Commences same day as e.2

e.4	NGA-BEAC validation of Post-Auction Documents and endorsement to NGAC	2 WD	After e.3
e.5	NGAC review of the completeness of Post-Auction Documents	1 WD	After e.4
e.6	DOE issuance of Certificates of Award to Winning Bidders	2 WD	After e.5

Any amendment to the foregoing timeline shall be issued through a Bid Bulletin, official advisory, or other authorized DOE issuance.

3. Auction Capacity and Aggregation Procedure

Prior to the issuance of the TOR, the DOE shall determine the applicable auction framework and aggregation approach for the Auction Round, consistent with DC No. DC2026-06-0013.

The aggregation approach may be:

3.1 System-wide aggregation, where the Auction Capacity Requirement is determined based on system-level requirements; or
3.2 Per utility-based aggregation, where the Auction Capacity Requirement is determined based on the verified requirements of qualified Distribution Utilities (DUs).

The applicable aggregation approach, Auction Capacity Requirement, relevant grid or system, Delivery Commencement Period, and settlement approach shall be reflected in the TOR, ITB, Bid Bulletin, or other official auction documents.

The applicable aggregation approach shall serve as the basis for the corresponding allocation, settlement, and compliance obligations under this GAIG and the applicable Settlement Mechanism.

For system-wide aggregation, the allocation of settlement obligations shall be governed by the approved Settlement Mechanism of the ERC and shall be based on the methodology prescribed for an Auction Round.

For per utility-based aggregation, the Awarded Gas Capacity shall be allocated only to the DUs whose verified requirements formed part of the Auction Capacity Requirement.

4. DU Qualification Procedure for Utility-Based Aggregation

For Auction Rounds using utility-based aggregation, the DOE shall undertake a DU qualification process prior to the finalization of the Auction Capacity Requirement.

4.1 Identification of DUs

The DOE shall identify DUs with potential uncontracted mid-merit requirements based on their latest approved Power Supply Procurement Plans (PSPP), Load Duration Curve submissions, and other relevant planning documents required under applicable DOE issuances.

4.2 Validation of Requirements

The TWG shall validate whether the capacity requirement proposed for aggregation corresponds to the DU's uncontracted mid-merit requirement.

The validation may consider the DU's latest approved PSPP, Load Duration Curve, demand forecast, existing contracted capacity, and other technical information necessary to establish the mid-merit requirement.

4.3 Financial and Payment Assessment

For Electric Cooperatives, the DOE, with assistance from the National Electrification Administration (NEA), shall conduct evaluation or certification on financial standing and payment performance.

For other DUs, the DOE may require relevant documents or certifications showing payment performance with existing power suppliers and the Wholesale Electricity Spot Market (WESM).

4.4 Preparation and Approval of Qualified DU List

The TWG shall submit to the NGAC a recommended list of qualified DUs whose verified requirements may be included in the Auction Capacity Requirement. The list shall indicate, at a minimum:

4.4.1 Name of the DU;
4.4.2 Relevant grid;
4.4.3 Verified uncontracted mid-merit requirement;
4.4.4 Basis of verification;
4.4.5 Relevant delivery period; and
4.4.6 Recommended capacity for inclusion.

The NGAC shall review and approve the final list of qualified DUs for purposes of finalizing the Auction Capacity Requirement.

4.5 Notice and Effect of Inclusion

The final list of qualified DUs, or the relevant portion thereof, shall be reflected in the TOR, Bid Bulletin, official advisory, or other DOE official document.

Upon inclusion of the DU's verified requirement in the final Auction Capacity Requirement and subsequent award thereof, the concerned DU shall comply with the obligations prescribed in DC No. DC2026-06-0013, TOR, GAIG, Certificate of Award, and applicable Settlement Mechanism.

5. PRE-AUCTION

5.1 Registration Requirements and Procedures

The Registration Period for Interested Bidders shall commence fifteen (15) calendar days after the posting and issuance of the ITB and the TOR on the DOE's official website and shall be for a period of fifteen (10) working days.

5.1.1 Interested Bidders intending to participate in the NatGas Auction shall submit the following registration requirements through the official email address NGA@doe.gov.ph, copy furnished DOE - Records Management Division (DOE-RMD) through idmdrecords@doe.gov.ph.

A. General Requirements

5.1.1.1. Duly accomplished Registration Form in the format prescribed in Annex C1;

5.1.1.2. Letter of Intent to participate in the auction addressed to the Chairperson of the NGA-BEAC, following the prescribed template in Annex C2;

5.1.1.3. Proposed or existing primary point of interconnection and at least one (1) alternative connection site;

5.1.1.4. Duly notarized Affidavit of Undertaking (No Legal Impediment) in accordance with the prescribed template in Annex C3; and

5.1.1.5. Duly notarized Secretary's Certificate or Board Resolution authorizing the signatory to execute and file the foregoing documents and to participate in the auction on behalf of the Interested Bidder in accordance with the prescribed template in Annexes C4 and C5, respectively.

B. Additional Requirement for New or Under Construction Facilities

5.1.1.6. Valid documents proving possessory rights or legal site control over the proposed location of the facility.

C. Additional Requirement for Existing or Operational Facilities

5.1.1.7. For Existing Facilities that have commenced commercial operations, a copy of the Certificate of Compliance (COC)

or Provisional Authority to Operate (PAO) issued by the ERC; and

D. Additional Requirement for Expanded or Upgraded Facilities

5.1.1.8. Proof of dedicated metering facilities and corresponding revenue meter for the incremental or additional capacity.

5.1.2 Documents or forms (including supporting/substantiation documents) which are required to be submitted under oath or as certified copies must comply with the following:

5.1.2.1. If executed[1] in the Philippines or issued in the Philippines, it must be sworn to or acknowledged before a Philippine Notary Public; and

5.1.2.2. If executed, issued, or certified as a copy outside the Philippines, the document must be sworn to or acknowledged before a Philippine consular official or any person authorized to administer oaths in the place of execution, and must be authenticated by consularization through a Philippine consular official or by Apostille certification issued by the competent authority of that place.

Where the country of execution is not a signatory to the Apostille Convention or has no Philippine embassy or consulate, the document shall instead be sworn to or acknowledged before any person locally authorized to administer oaths and legalized by the relevant department of that country's Ministry of Foreign Affairs, which must certify in the same instrument that the country is not an Apostille signatory or that no Philippine diplomatic post exists therein.

5.1.3 For Natural Gas-Fired Facilities which shall be completed in phases, the Interested Bidders may submit registration requirements on a per-phase basis: *Provided*, that each phase shall have a specific Delivery Commencement Date, an appropriate metering facility and a corresponding revenue meter.

5.1.4 For a commercially operating Natural Gas-Fired Facilities that is already registered in the WESM as a generating unit/s which is/are without legal impediment (e.g., not covered by any supply agreements, including contracts for ancillary services), an Interested Bidder may submit registration requirements for the

[1] The country of document execution would be the country where the document was issued or where the document was signed by the relevant party or parties in accordance with the formalities required in such country.

entire capacity of the generating unit/s: *Provided*, That where only a generating unit/s is to be offered, such capacity shall have a dedicated metering facility and corresponding revenue meter.

5.1.5 For existing Natural Gas-Fired Facilities that have undergone expansion or upgrading, an Interested Bidder may submit registration requirements for the incremental or additional capacity resulting from such expansion or upgrade: Provided, that it shall be covered by a separate generating unit and wholly offered, and shall have a dedicated metering facility and corresponding revenue meter.

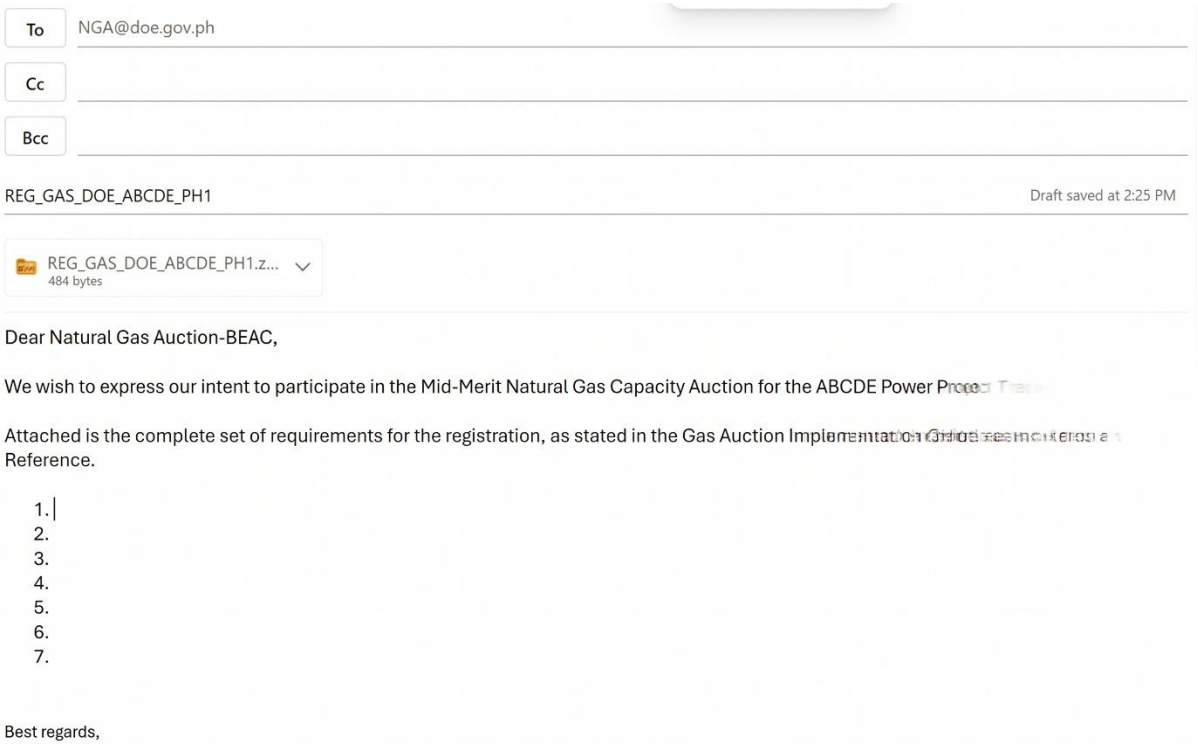

5.1.6 The complete registration requirements, compiled in ".zip" format, shall be attached to the registration email with the prescribed file name and subject title format indicated below.

File Name and Subject Title:

REG_GAS_DOE_[CompanyName] (for Whole Facility)
REG_GAS_DOE_[CompanyName]_PH1 (for Phase)
REG_GAS_DOE_[CompanyName]_PH1_Unit1 (for Specific Unit)

Note:

- The Company Name should be abbreviated;
- Indicate in the File Name and Subject Title the Phase No. and/or Unit No., if applicable; and
- The File Name and Subject Title should be less than 200 characters.

REG_GAS_DOE_ABCDE_PH1 Draft saved at 2:25 PM

REG_GAS_DOE_ABCDE_PH1.z... 484 bytes

Dear Natural Gas Auction-BEAC,

We wish to express our intent to participate in the Mid-Merit Natural Gas Capacity Auction for the ABCDE Power Project.

Attached is the complete set of requirements for the registration, as stated in the Gas Auction Implementation Guidelines, for your kind reference.

1.
2.
3.
4.
5.
6.
7.

Best regards,

5.1.7 The timestamp reflected in the DOE's email system indicating "received" shall serve as the official basis for determining the timeliness of the submission.

5.1.8 In the event of multiple submissions bearing the same subject title, only the latest complete submission received within the prescribed Registration Period shall be accepted and considered for evaluation.

5.2 Evaluation of Registration Documents

The NGA-BEAC and TWG shall evaluate the registrants' compliance with Section 5.1 of this GAIG and conduct an evaluation of the Registration Documents under Sections 5.1.1 within two (2) working days from the last day of the Registration Period. In the evaluation of the Registration Documents, they shall assess the submissions and render a "Pass" or "Fail" mark based on the completeness and acceptability of the submission of the registrants.

Failure to submit any required documents, or submission of unacceptable documents (e.g., unnotarized when notarization is required) shall be grounds for disqualification: *Provided*, That instruments executed outside the Philippines which are not apostilled shall be accepted if the Interested Bidder's Affidavit of Undertaking (No Legal Impediment and Good Faith) includes an undertaking to submit the original apostilled documents within thirty (30) calendar days from the last day of the Registration Period.

5.3 Posting of the List of Pre-Qualified Bidders, Notification of Qualification Results, and Issuance of User-Specific IDs

The NGA-BEAC shall finalize and post the official list of Pre-Qualified Bidders on the DOE website, together with the schedule of the Pre-Bid Conference, and shall notify such Pre-Qualified Bidders through electronic mail within two (2) working days after the evaluation of the registration documents.

Concurrently, the NGA-BEAC shall notify in writing the Interested Bidders who failed to comply with the registration requirements, stating therein the grounds for disqualification.

Only those included in the posted list shall be permitted to participate in the succeeding stages of the NatGas Auction.

The NGA-BEAC, through the TWG, shall issue the corresponding User-Specific IDs to the Authorized Representatives of the Interested Bidders whose Registration Documents are found compliant within two (2) working days after the evaluation of the registration documents. Upon issuance of the User-Specific IDs, such Interested Bidder shall be considered Pre-Qualified Bidders for purposes of participation in the Pre-Bid Conference.

6. PRE-BID CONFERENCE

The NGA-BEAC shall conduct a Pre-Bid Conference, the schedule of which shall be posted on the DOE website. Each Pre-Qualified Bidder shall be entitled to participate in the Pre-Bid Conference through its duly authorized representative and one (1) observer.

6.1 Submission of Comments/Clarifications on the TOR, GAIG, and Other Auction Related Documents

All comments, inputs, or queries concerning the GAIG and its Annexes, the TOR and its Appendices, and other relevant details of the Auction shall be submitted within three (3) working days before the scheduled date of the Pre-Bid Conference.

Any comments submitted after the deadline shall not be accepted. In preparation for the Pre-Bid Conference, the TWG shall consolidate, review, and prepare the proposed responses thereto and submit the same to the NGA-BEAC.

6.2 The Pre-Bid Conference shall address those comments, inputs, or queries that were received in a timely manner. Pre-Qualified Bidders may also raise questions, comments, or clarifications on the GAIG and its Annexes, the TOR and its Appendices, and other relevant details of the Auction during the Pre-Bid Conference which may be addressed directly therein.

6.3 NGA-BEAC Issuance and Posting of the Bid Bulletin on the DOE Website

The NGA-BEAC shall issue a Bid Bulletin to be posted on the DOE website three (3) working days from the date of the Pre-Bid Conference containing the results of the Pre-Bid Conference, including any modification or amendment of the GAIG, TOR, and related documents as may be necessary. Such Bid Bulletin shall be signed by the NGA-BEAC Chairperson and shall be issued upon endorsement, through the NGAC, to the Secretary for approval.

7. AUCTION

7.1 Submission of Electronic Copy of Bid Security

Upon posting of the Bid Bulletin issued three (3) working days after the Pre-Bid Conference, Pre-Qualified Bidders shall submit an Electronic Copy of Bid Security, in PDF file, through the Natural Gas Auction (NGA) email at NGA@doe.gov.ph.

7.2 Evaluation of Electronic Copies of Bid Security

The TWG shall conduct a formal and substantive evaluation of the Bid Security, prescribed template, stated amount, validity period, and other requirements under the TOR and its Appendices.

7.3 Endorsement of Bid Security Evaluation Results

The TWG shall endorse to the NGA-BEAC the results thereof, together with its findings and recommendation on the conformity of the submitted electronic copies of Bid Security.

7.4 Issuance of Notice of Qualification Results

The NGA-BEAC, through the TWG, shall issue the Notice of Qualification Results to the Authorized Representatives of Pre-Qualified Bidders whose Bid Securities are found compliant, within one (1) working day at the end of the duration of the Pre-Qualified Bidders' submission of the electronic copy of Bid Security. Upon issuance of the Notice of Qualification Results, such Pre-Qualified Bidders shall be considered Qualified Bidders for purposes of participation in the Pre-Bid Conference.

7.5 Auction Proper

The Auction Proper shall be conducted within one (1) working day from the NGA-BEAC issuance of electronic notices of acceptance of Bid Security and User-Specific IDs for Qualified Bidders. Only Qualified Bidders issued with User-Specific IDs shall be allowed to access the Electronic Bidding Platform and submit bids.

7.6 Submission of Original Bid Security

Within two (2) working days from the start of the Auction Proper, Qualified Bidders shall submit the original Bid Security to the DOE-RMD, in accordance with the instructions prescribed in the TOR and Bid Bulletin.

7.7 Transmittal, Evaluation, and Verification of Original Bid Security

The DOE-RMD shall transmit the same to the TWG. The TWG shall evaluate and verify whether the submitted original Bid Security conforms to the accepted electronic copy in terms of content, format, stated amount, validity period, signatures, and other requirements prescribed in the TOR and its Appendices.

The TWG shall endorse to the NGA-BEAC the results thereof, together with its findings and recommendation.

7.8 Validation and Endorsement of Bids and Corresponding Capacities

The TWG shall validate the bids and corresponding capacities submitted during the Auction Proper within two (2) working days from the conduct of the Auction Proper. The validation shall apply the applicable bid validation rules, ranking and stacking methodology, Bid Security coverage, Auction Capacity Requirement, and other requirements prescribed in the TOR, this GAIG, the Bid Bulletin, and other relevant auction documents.

Upon completion of the validation, the TWG shall endorse the validated bids and corresponding capacities to the NGA-BEAC for review.

The NGA-BEAC shall have one (1) working day from receipt of the TWG endorsement to review and endorse the validated bids to the NGAC.

The NGAC shall have one (1) working day from receipt of the NGA-BEAC endorsement to approve the list of Potential Winning Bidders based on the accepted bids.

7.9 Endorsement, Issuance of Notice of Award, and Publication of Potential Winning Bidders

Within one (1) working day from approval of the list of Potential Winning Bidders, the NGAC shall endorse the same to the DOE Secretary.

The DOE Secretary shall approve and issue the Notice of Award to the Potential Winning Bidders within two (2) working days from receipt of the NGAC endorsement.

Thereafter, on the last day for the issuance of Notice of Award, the NGA-BEAC shall publish the list of Potential Winning Bidders on the DOE Website.

8. POST-AUCTION DOCUMENTS

8.1 Submission of Post-Auction Documents

Potential Winning Bidders shall submit the applicable post-auction documents within ten (10) calendar days from the publication of the list of Potential Winning Bidders on the DOE Website.

The electronic copy of the post-auction documents shall be submitted to the DOE-RMD through idmdrecords@doe.gov.ph, copy furnished NGA@doe.gov.ph, within the same prescribed period.

The original hard copies of the duly notarized documents, certifications, and other documentary submissions, including the original Performance Security, shall likewise be submitted to the DOE-RMD within the same 10 (10) calendar day period, addressed to the NGA-BEAC Chairperson.

The timestamp reflected in the DOE email system indicating "received" shall serve as the official basis for determining the timeliness of the electronic submission, without prejudice to the required submission and validation of the original copies.

8.2 Documents Required from All Potential Winning Bidders

8.2.1 Duly notarized Affidavit of Undertaking, in accordance with the prescribed template in Annex C7, covering the following undertakings;

8.2.1.1 To deliver the Offered Capacity on the Committed Delivery Commencement Date;
8.2.1.2 To comply with the applicable reliability standards throughout the supply delivery period; and
8.2.1.3 To comply with the fuel source and replacement fuel requirements.

8.2.2 Existing or Operational Facilities intending to extend Supply Delivery Period, any required retrofitting, modification, or control adjustments to comply with the Minimum Flexibility Requirements stated under the TOR shall be completed prior to the commencement of the extension and shall submit a Duly notarized Affidavit of Undertaking using the prescribed template in Annex C7A, confirming compliance with this requirement.

8.2.3 For New or Under Construction Facilities, the Potential Winning Bidder shall submit a duly notarized Affidavit of Undertaking using the prescribed template in Annex C7B, undertaking to commence and complete the construction, testing and commissioning, interconnection, synchronization, and other pre-delivery activities necessary to ensure that the facility is capable of delivering or making available the Offered Capacity on the committed Delivery Commencement Date, in accordance with the TOR, GAIG, COA,

applicable Grid Code requirements, and other relevant technical and regulatory requirements.

8.2.4 Original Performance Security, in the form, amount, and validity period prescribed under the TOR and its Appendices.

8.2.5 Proof of application filing for System Impact Study (SIS) with the National Grid Corporation of the Philippines (NGCP) and/or Distribution Impact Study (DIS) with the concerned Distribution Utility (DU), as applicable.

8.2.6 For Existing Facilities, the Potential Winning Bidder shall submit a Certification under Oath, in accordance with the prescribed template in Annex C8, certifying the declared Fuel Source Category of its participating NatGas Facility, together with the corresponding DOE-Oil Industry Management Bureau Certification validating such declared Fuel Source Category.

8.2.7 All Potential Winning Bidders shall submit a Work Program (WP) in accordance with the prescribed template in Annex C9. For Existing NatGas Facilities requiring retrofitting and modification, an additional section detailing the required retrofitting and modification works shall be included as part of the WP.

The complete registration requirements, compiled in ".zip" format, shall be attached to the registration email with the prescribed file name and subject title format indicated below.

File Name and Subject Title:

POST_GAS_DOE_[CompanyName] (for Whole Facility)
POST_GAS_DOE_[CompanyName]_PH1 (for Phase)
POST_GAS_DOE_[CompanyName]_PH1_Unit1 (for Specific Unit)

Note:

- The Company Name should be abbreviated;
- Indicate in the File Name and Subject Title the Phase No. and/or Unit No., if applicable; and
- The File Name and Subject Title should be less than 200 characters.

8.3 Transmittal of Post-Auction Documents to the TWG

Within one (1) working day from the lapse of the period for submission of Post-Auction Documents, the DOE-RMD shall transmit the submitted Post-Auction Documents to the TWG for evaluation. The transmittal shall include the record of receipt, timestamp of submission, and such other relevant information necessary to determine compliance with the prescribed submission period.

8.4 TWG Evaluation of Post-Auction Documents

The TWG shall evaluate the completeness, validity, conformity, and acceptability of the Post-Auction Documents within two (2) working days from receipt thereof. The TWG shall endorse the results of its evaluation to the NGA-BEAC, together with its findings and recommendation.

8.5 NGA-BEAC Validation and Endorsement to the NGAC

The NGA-BEAC shall validate the evaluation results endorsed by the TWG within two (2) working days from receipt thereof. Upon validation, the NGA-BEAC shall endorse to the NGAC the Post-Auction Documents found to be complete and in order, together with its recommendation for the issuance of the corresponding Certificate of Award.

8.6 NGAC Review of Completeness of Post-Auction Documents

The NGAC shall review the completeness of the Post-Auction Documents within one (1) working day from receipt of the NGA-BEAC endorsement. The NGAC shall approve the issuance of the Certificate of Award for Potential Winning Bidders whose Post-Auction Documents are found complete and in order.

8.7 Issuance of Certificate of Award

The DOE shall issue the Certificate of Award to the Winning Bidders within two (2) working days from the NGAC's determination that the Post-Auction Documents are complete and in order, subject to compliance with all applicable requirements under DOE DC No. DC2026-06-0013, this GAIG, the TOR, Bid Bulletin, Notice of Award, and other relevant auction documents.
